

VIRGIL KHAYANGA INGOSI

Product-Minded Technologist | PM, Frontend & UI/UX Development

0110048178 khayangavirgil@gmail.com LinkedIn available upon request

PROFESSIONAL SUMMARY

Product-minded technologist operating at the intersection of product, technology, and design. Experienced in helping turn ideas into working digital systems that can be understood, built, tested, and continuously improved. Skilled at translating organizational goals and user needs into product structures, platform requirements, and intuitive user experiences. Comfortable moving across UX, frontend engineering, and tech architecture to ensure product vision connects cleanly to execution.

CORE COMPETENCIES

Product Strategy & Roadmapping	Cross-Functional Leadership	Requirements & Prioritization
UI/UX Design & Wireframing	Frontend Dev (React, Next.js)	Agile & Sprint Coordination
Technical Architecture & APIs	User Research & Usability	Stakeholder Communication

PROFESSIONAL EXPERIENCE

Head of Tech & Digital Transformation — Arbarne Agricultural Group Oct 2025 – Present

- Lead product direction for the Future Farms Framework, shaping how the assessment framework becomes a practical digital journey for farmers.
- Translate organizational goals and user needs into platform structure, user journeys, requirements, and prioritized development backlogs.
- Lead a cross-functional team, coordinating developers and interns through sprints to move the platform from concept into a production-ready digital product.
- Contribute across UX design, frontend development, backend services, REST APIs, and system architecture to keep product thinking tightly connected to implementation.
- Design intuitive, user-friendly interfaces to make complex farm compliance and tracking data accessible to non-technical users.

Frontend Developer — Kodit Afrika Aug 2025 – Oct 2025

- Built responsive interfaces and reusable UI components for an online art marketplace using Next.js, React, and Tailwind CSS.
- Integrated REST APIs to dynamically load artwork details, artist profiles, and responsive checkout workflows.
- Collaborated with design and backend teams to translate visual and functional requirements into a smooth browsing and purchasing experience.

PROFESSIONAL EXPERIENCE (CONTINUED)

Frontend Developer — Ubuntu WaterHub Africa Aug 2024 – Jan 2026

- Helped shape the organization's digital presence, using web technology and UI design to communicate smart water access and meter solutions.
- Designed and developed interactive management dashboards and web interfaces using Next.js, React, and Tailwind CSS.
- Translated operational service data and organizational goals into clear, user-friendly web experiences for stakeholders and customers.
- Integrated backend APIs and data workflows to present real-time operational information accurately.

QA Engineer & UI/UX Designer — Directcore Technologies Apr 2024 – Jul 2024

- Conducted usability testing and quality assurance reviews to identify functional issues and elevate product stability and accessibility.
- Designed and refined user interfaces, working closely with engineers to ensure design consistency and intuitive user flows.

TECHNOLOGY & DIGITAL TOOLS

TECHNOLOGY & FRONTEND React.js, Next.js, TypeScript, JavaScript, Node.js, REST APIs, Tailwind CSS	DATA & SYSTEMS ARCHITECTURE PostgreSQL, MongoDB, MySQL, Prisma ORM, System Design
DESIGN & PROTOTYPING Figma, Wireframing, UI/UX Design, User Research, Usability Testing	WORKFLOW & DELIVERY Agile / Scrum Development, API Integration, QA & Testing, Responsive Design

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology — KCA University 2020 – 2024

- **Cisco Certified Network Associate (CCNA 1)** — Cisco Networking Academy
- **Cisco Networking Essentials & Cybersecurity Essentials**
- **Programming Essentials in Python**

KEY STRENGTHS

Organization & Execution: Manages priorities effectively to maintain momentum and hit deadlines.	Communication: Bridges technical, design, and product discussions clearly.
Analytical Problem Solving: Pragmatic, structured approach to defining and solving product problems.	Proactive Ownership: Takes accountability from initial idea to final execution.
